DETAILED ACTION

1. Claims 1-2, 4-17, and 19-26 are pending.
2. Claims 3 and 18 have been cancelled.
3. Claims 1 and 16 have been amended.

Response to Arguments

4. Applicant's arguments filed 10 May 2005 have been fully considered and they are persuasive.

Allowable Subject Matter

5. **Claims 1-2, 4-17, and 19-26 are allowed.**
6. The following is an examiner's statement of reasons for allowance: The present invention is directed toward a method and system for using voice recognition to reset, improving passwords or PIN resets and providing users with new passwords or PINs. Each independent claim identifies the uniquely distinct features "**resetting the password in response to authenticating the received words and delivering the password to the user in response to resetting the password**". The closest prior art Talmor et al. (Pub No. 2003/0135740) discloses a biometric-based system and method for enabling authentication of electronic messages sent over a network, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.
4. Therefore, **claims 1,11, and 16**, and the respective **dependent claims 2,4-10,12-15,17, and 19-26** are in condition for allowance.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
